

At Crestwood, we look forward to improving the lives of our patients through weight loss surgery.

Dedicated to quality and positive patient outcomes, the **Crestwood Bariatric Center** achieves astonishing results every day for people with chronic weight issues through a less invasive procedure that gets you back on your feet much quicker than you might have dreamed possible.

At the Crestwood Bariatric Center you will receive extensive nutritional counseling so you can make dietary decisions that will help keep the weight off. We also offer ongoing support so you don't have to go through this process alone. And, over time, you'll find the pounds and inches slipping away, only to be replaced by a better life and a better sense of self. To learn more about this remarkable, life-changing program, call us today. Because, deep down, a thinner, happier you is ready to enjoy life again.

## Weight Loss Surgery at Crestwood

*More than a surgery.  
A life-altering experience.*

There's more to our program than simply undergoing weight loss surgery. Because in the days and weeks before and after your procedure, you'll need to know what to eat and how to eat. That's why we begin your program with an evaluation and intense nutritional counseling. You'll learn strategies to avoid overeating, including what to order in a restaurant. You'll learn the importance of proper exercise. And, after your weight loss surgery your commitment is important. You'll meet numerous times with your own Bariatric counselor and be guided to support groups. All to make sure that the weight stays off.

#### **Weight Loss Surgical Techniques:**

- Laparoscopic Bariatric Surgery
- Laparoscopic Roux-en-Y Gastric Bypass
- Laparoscopic Adjustable Gastric Banding (Lap-Band and Realize Band)
- Laparoscopic Biliopancreatic Diversion with Duodenal Switch
- Laparoscopic Sleeve Gastrectomy
