
Medication Record

Taking charge of your health includes accurately communicating to your health care provider. One of the most important ways to ensure your health and safety when receiving medical attention is to share a list of the medications (including herbals, vitamins, and over-the-counter medications) that you are currently taking. Crestwood recommends that you use this form to track your medication information, and to share it with your health care providers, as well as your pharmacy. Remember to keep it up-to-date with any new medications.

Name: _____

Date	Medication	Dose Given	Frequency (i.e. 2x per day)	Time	am
